**“The Arab Contractors” selects EGYPTROL for the
Engineering of Assiut PP**

“The Arab Contractors” has signed a contract with EGYPTROL www.egyptrol.com, Assiut 650MW Supercritical power plant.

EGYPTROL is the selected Engineering partner for “The Arab Contractors” for this project.

The pre-bid scope covers preliminary designs to allow The Arab Contractors to bid for the Package, including preliminary design for civil and electromechanical works including the preparation of Calculation reports, Preliminary BOQ’s for lump sum items, preliminary design drawings, design review of all suppliers’ quotations and technical support in the preparation of the final proposal that will be submitted by Arab Contractors to UEEPC.

EGYPTROL post-award scope covers full design and workshop documentation of the Civil Works package as identified by UEEPC issued RFP.

The Arab Contractors had a history of cooperation with the same engineering partners EGYPTROL in the bidding phase for South Helwan (3X650MW) civil package, Al-Sabab conversion to CC civil package, West Damietta conversion to CC civil package and Iraq’s Samawa, and Diwania power plants projects. The Arab Contractors (in Consortium with Elsewedy Electric) did win the EPC contract for the execution of Diwania 4x125MW simple circle power plant.
