**EGYPTROL announces the completion of activities at  
Ansaldo Energia S.P.A. 6<sup>th</sup> October PP**

EGYPTROL (Egypt Engineering Services, S.A.E.) announces the completion of a contract with “Ansaldo Energia S.P.A. Italy” for providing commissioning, operation and operation supervision staff for “6<sup>th</sup> of October Simple Cycle Power Plant” 4x150MW” Gas turbines and auxiliary systems including the water treatment.

The contract was signed on December 20, 2011 and the dispatch of our staff to the Power Plant started December 22<sup>nd</sup>.

At the first stage of EGYPTROL involvement, its staff was responsible for the full commissioning activities of the Power Plant under the supervision of Ansaldo Energia Commissioning Supervisors.

At the next stage, EGYPTROL staff participated in the plant operation and maintenance activities, in cooperation with both the equipment supplier Ansaldo Energia and the plant Owner “Cairo Electricity Production Company (CEPC)”.

At the final stage, EGYPTROL staff provided operation and maintenance supervision to CEPC staff, in preparation for the plant turn over to them.

During the execution of this scope, EGYPTROL established a residency compound and transportation bus line for its staff at 6<sup>th</sup> October area to assure quality service and employees convenience.
