

Holds a B. Sc. in Mechanical Engineering and has about 8 months experience working as Project Engineer.

PERSONAL DATA

Nationality : Egyptian
Gender : Male
Residence : Cairo

EDUCATION

: B. Sc. in Mechanical Engineering, The British University in Egypt, 2018

LANGUAGES

Arabic : Native Language
English : Very Good

COMPUTER SKILLS

: Windows, MS Office, Internet
: Solid Works
: AutoCAD
: Primavera P6 17.7

TRAINING COURSES AND CERTIFICATIONS

- : Welding Technology and Inspection, Army Factory of production and repair of armor (Aug./Sep. 2017): The training addresses the types of welds and the quality control methods to check the sound weldments using Non-Destructive and Destructive Tests.
- : Welding Technology and NDT Inspection, AZ International for Engineering and Contracting (Jul./Aug. 2017): The Course addresses the technology of welding and joining and the quality control methods to check the sound weldments, by using Non-Destructive method and how to draft an accurate report.
- : Welding Technology and Inspection of Weldment, Central Metallurgical Research and Development Institute (CMRDI) (Jul./Aug. 2017): The training addresses the different methods of checking the sound weldments by using Non-Destructive and Destructive Tests.
- : General Mechanical Inspection of Military Armor, Army Factory of production and repair of armor (Aug./Sep. 2016): The training addresses the general components of military vehicles and how it's maintained.

- : Practical Training in Engine Training Workshop, Egypt Air Holding Company - Training Center - Technical Training Department (Jul./Aug. 2016): The training addresses the parts of commercial airplanes and how maintenance in case of emergency or during ground maintenance alongside the components of the captain and flight crew simulators.
- : Basic Arduino Programming, EGY SPARK (Aug. 2015): The course defines electronics and programming, using Arduino Software.
- : Profession Training Course in Machinery Failure Analysis and Preventive, The British University in Egypt (BUE) (Aug. 2014).

CHRONOLOGICAL EXPERIENCE RECORD

- Dates** : From Jan. 2019 till Aug. 2019
- Employer** : ENERDYN GLOBAL
- Job title** : Project Engineer
- Job Description** : In charge of coordinating and managing all projects requirements, including:
- Keep an eye on all relevant safety objectives and legal requirements.
 - Interpret clients' requirements.
 - Identify engineering problems and ensure solutions are implemented.
 - Evaluate, organize and priorities workload within a schedule.
 - Consult with third party contractors to ensure all equipment is fit for purpose.
 - Issuing quotations, preparing evaluations for purchase, and importing.
 - Monitor the cash requests and issuing cost control reports on regular basis.
 - Take responsibility for a team of engineers.
 - Review proposals and consult with management team to develop project objectives and schedule.
 - Assign project responsibilities to development team.
 - Identify and outline project outlines.
 - Review contracting bids.
 - Study project design, customer requests, standards of performance and cost estimates to determine project specifications.
 - Monitor project progression resolve any issues that arise and coordinate team activities to maintain approved schedule.
 - Control project pace and suggest schedule changes as needed.
 - Adhere to establish budget and aid in contractor contract administration.
 - Update management team and other project engineers on project progression, completion and any necessary updates regularly.
