

Holds a B. Sc. in Electrical Power & Machines Engineering and has over 18 years hands-on experience and became a Project Manager.

PERSONAL DATA

Nationality : Egyptian
Birth Date : 10/06/1975
Gender : Male
Marital Status : Married
Residence : Giza, Cairo

EDUCATION

: B. Sc. in Electrical Power & Machines Engineering, Minia University, 2000

LANGUAGES

Arabic : Native Language
English : Very Good

COMPUTER SKILLS

: Windows, MS Office (Word, Excel, Access), Internet

TRAINING COURSES AND CERTIFICATIONS

: Health and Safety Training.
: OSHA (construction) Card No. 0900124711.
: OSHA (General industry) Card No. 0600257702.

CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Sep. 2019 till now
Employer : East Zeit Petroleum (ZeitCo)
Project : Fire Alarm System in Gabel El Zait
Job title : Electrical Project Engineer
Job Description :

- Reviewing the Engineering Drawing, Documents, specification and BOQ.
- Marking surveying for prices and Evaluations with the budget.
- Management all meeting with Engineering, and Subcontractors.
- Site visiting and clearing all project obstacles.
- Following Site activities reports, quantities evaluations, time schedule,

etc.

- Following pre-commissioning, commissioning, and start-up.
- Clearing Punish list items as Standard specs.
- Documentation and certificates collections and handed over the project to the Owner.

Dates : From Sep. 2018 till Sep. 2019
Employer : Triple M
Project : Energy Solar Power in Aswan
Job title : Project Manager
Job Description :

- Follow all installations activities, technical information's, and management all construction crews to reach our Goals in the project.
- Management with all main contractors meeting, daily reports, and daily activities permits....etc.

Dates : From May 2009 till Sep. 2018
Employer : Shell / Badr El Din Petroleum Company (BAPETCO)
Project : NEAG 1 Site, BED 3 locations in Western Desert
Job title : Discipline Electrical Engineer
Job Description : General supervision and follow up all subcontractors' (Petromaint, Petrojet and Enppi) activities provide all technical assistance, monitor and evaluating all construction new projects, revising invoices and quality control procedures for all materials and activities at site such as:

- Engineering Major Electrical power & control.
- Managing Electrical construction projects in manufacturing field.
- Able to read P&IDs & electrical single line diagrams & implement it on field.
- Able to implement, test, validate & handover whole process control system architecture (controllers, communication modules, servers & SCADA systems).
- Strong a knowledge about the IEC code specifically the safety standards, grounding systems & wiring standards.
- Good experience in process instrumentation (pressure, level, temperature & flow) installation & calibration.
- Able to identify the different types of electrical panels, validate & handover it.
- Good point deals with Enppi Via the entire project as turn keys project.
- Supervising Installation power generation that contains GAS GENERATORS, transformers, medium voltage S.G, low voltage S.G., and Synchronization panel.
- Supervising laying all types of cables.
- Supervising test cable by mugger and VLF.
- Preparing work plan, work permits, materials required, tools, safety precautions, and the teams suitable for the work.
- Supervising the medium splices installation, and terminations and all low voltage cable terminations.
- Supervising pre-commissioning, commissioning, and start-up.

- Support application of safety rules in site.

Dates : From May 2015 till 2016 (part time)
Employer : Pico / Amapetco
Project : Cairo Office
Job title : Technical Office Engineer
Job Description : Reviewing, Checking and Modification the electrical drawing submit from Worley Parson for transferring power from substation to living camp.

Dates : From May 2013 till 2014 (part time)
Employer : Petrotec
Project : Solar Cell Plant (200Kwatt)
Job title : Project Manager
Job Description : Responsible for all materials supplying, installation works on pre-commissioning, commissioning and start-up.

Dates : From May 2007 till May 2009
Employer : Global Energy Services (GES) International Company
Projects :

- Zafarana 3 (120MW JBIC Project) Wind farm power station
- Zafarana 2 (80MW German Project) Wind farm power station

Job title : Project Manager
Job Description :

- Supervising Schneider Electric, Kahromica, El Sewedy and Petrotec Co.
- Responsible for Supplying and Installations.
- Underground cable (Mv. Cables, LV. Cables, Earth cables and fiber optic cables).
- Kiosks, Transformers, Ground control panel and Switch gear, Joints, terminations for MV.
- Testing and loop checks.
- Pre-commissioning, commissioning, start-up and troubleshooting problems solving.
- Support application of safety rules in site.

Dates : From Dec. 2005 till May 2007
Employer : Electro Tharwat
Project : Zafarana 1 (85MW Spanish Project) Wind farm power station
Job title : Site Manager
Job Description :

- Represent CONTRACTOR in co-ordination with COMPANY Discipline Heads / Project Team for monitoring of COMPANY standards.
- Review work carried out by third parties (vendors), and to participate in Safety and Facilities Technical Audits.
- Establish the actual (as opposed to work process) resources / capabilities of existing field facilities in order to identify potential bottlenecks.
- Actively develop LOCAL staff to fulfill engineer's role.
- Safety aspects of executions in relation to the project cycle.
- Quality Assurance and Control requirements of the executions process.
