

Holds a B. Sc. in Electrical Power & Machines Engineering and has over 8 years hands-on experience as an Electrical Construction Engineer in power stations and much knowledge in the high voltage electric power and machine.

## PERSONAL DATA

Nationality : Egyptian  
Birth Date : 21/08/1981  
Gender : Male  
Marital Status : Married  
Residence : Alexandria

## EDUCATION

: B. Sc. in Electrical Power & Machines Engineering, Mansoura University, 2004

## LANGUAGES

Arabic : Native Language  
English : Very Good

## COMPUTER SKILLS

: Windows, MS Office (Word, Excel), Internet  
: Primavera 5 (Level 1 & 2)

## TRAINING COURSES AND CERTIFICATIONS

: Training at Talkha Electrical Power Station.

## CHRONOLOGICAL EXPERIENCE RECORD

**Dates** : From Dec. 2011 till now  
**Employer** : Young Jin Electrical & Instrument  
**Project** : El Ain El Sokhna Supercritical Power Plant 2x650MW Gas/Oil Fired  
**Job title** : Technical Office Manager  
under supervision of Doosan Heavy Industrial & Construction  
**Job Description** : As Site Manager Assistance:

- Responsible for invoices and extra work and rework calculation.
- Responsible for preparing the break down for the extra work.
- Responsible of Daily Reports, Monthly Reports and Progress Reports.

- Building the data base with the files system to control all the documents of the project.
- Contact between quality control and construction.
- Contact between technical office and main contractor.
- Make drum schedule for all type of cables to recover and save all type of cables.
- Following the progress of the electrical activities at site.
- Supervision of all type of construction activities.
- Supervision of all subcontractors.

**Dates** : From Jul. 2011 till Dec. 2011

**Employer** : Misr Company for Mechanical and Electrical Projects (KAHROMICA)

**Project** : Abu Qir Thermal Power Plant 2x650MW Gas/Oil Fired

**Job title** : Electrical Technical Office Manager  
under supervision of Mitsubishi Heavy Industries LTD

**Job Description** :

- Responsible for invoices and change notes calculation.
- Responsible for preparing the break down for the extra work which is not included in the contract.
- Building the data base with the files system to control all the documents of the project.
- Contact between quality control and technical office.
- Contact between technical office and main contractor.
- Make drum schedule for all type of cables to recover and save all type of cables.
- Following the progress of the electrical activities at site.
- Supervision of all type of construction activities.
- Follow up the punch list; cover all the point for the cables, equipments, panels and raceway.
- Responsible for following CCC (Construction Completion Certificate) for the systems and partial systems activities up to the TO&AC (Tack Over and Acceptance Certificate) to follow up the invoicing according to the project specification.

**Dates** : From Jan. 2011 till Jul. 2011

**Employer** : Misr Company for Mechanical and Electrical Projects (KAHROMICA)

**Project** : El-Shabbab Gas Power Plant 8x125MW

**Job title** : Electrical Technical Office Manager  
under supervision of Kharafi National

**Job Description** :

- Responsible for invoices and change notes calculation.
- Responsible for preparing the break down for the change notes.
- Responsible for preparing the break down for the extra work which is not included in the contract.
- Responsible for documents control center.
- Building the data base with the files system to control all the documents of the project.
- Preparation of the MRR and MIR (material receiving and inspection reports).
- Following the store's conditions and material inventory control.
- Contact between quality control and technical office.

- Contact between technical office and main contractor.
- Make drum schedule for all type of cables to recover and save all type of cables.
- Following the progress of the electrical activities at site.
- Supervision of all type of construction activities.

- Responsible for following CCC (Construction Completion Certificate) for the systems and partial systems activities up to the TO&AC (Tack Over and Acceptance Certificate) to follow up the invoicing according to the project specification.

**Dates** : From Oct. 2006 till Nov. 2008

**Employer** : Misr Company for Mechanical and Electrical Projects (KAHROMICA)

**Project** : New Talkha Combined Cycle Power Station 1x750MW (nominal voltage)

**Job title** : Electrical Construction Manager under supervision of SKODA PRAHA

**Job Description** :

- Low voltage electrical panel such as MCC (Motor Control Center).
- Responsible of installation all type of instruments.
- Erection for DCS panel (distribution control system) and CCR (central control room) equipments.
- Raceway and cable tray installation.
- Earthing network.

- Responsible for cables (MV Cables & LV Cables), Control Cables (Instrument Cables, Thermocouple cables & Fiber optical Cables).
- Responsible for termination for all cables.
- Lighting and its commissioning.
- Follow the punch list, cover all the point for the cables, equipments, panels, and race way.
- Technical office.

**Dates** : From Dec. 2004 till Oct. 2006

**Employer** : Misr Company for Mechanical and Electrical Projects (KAHROMICA)

**Project** : Nubaria Combined Cycle Power Station 2x750MW (nominal voltage)

**Job title** : Construction Engineer under supervision of INITEC Energia & Alstom

**Job Description** :

- Erection for M.V. Switchgear, load centers, low voltage electrical panel such as MCC (Motor Control Center).
- Erection for DCS panel (distribution control system) and CCR (central control room) equipments.
- Raceway and cable tray installation.
- Earthing network.
- Responsible for cables (MV Cables & LV Cables), Control Cables (Instrument Cables, Thermocouple cables & Fiber optical Cables).
- Responsible for termination for all cables.
- Lighting and its commissioning.
- Follow the punch list, cover all the point for the cables, equipments, panels, and race way.
- Technical office.
