

Holds a B. Sc. in Geology - Chemistry and has about 16 years hands-on experience working as Well Site Geologist, Sales Manager and Senior Data Engineer.

PERSONAL DATA

Nationality : Egyptian
Birth Date : 30/01/1981
Gender : Male
Residence : Currently Oman

EDUCATION

: B. Sc. in Geology - Chemistry, Cairo University

LANGUAGES

Arabic : Native Language
English : Good
French : Fair

COMPUTER SKILLS

: Windows, MS Office, Internet
: Petrel
: Linux / Unix
: C++

TRAINING COURSES AND CERTIFICATIONS

: Basic mud logging training, Sperry Drilling Services (2004).
: Mud logging familiarization training course, Weatherford Surface Logging Systems (2009).
: Anax 500, TGD, Chromatograph and Wits, Weatherford Surface Logging Systems (2010).
: Mud Hydraulics, well control and hydrocarbon evaluation course, Weatherford Surface Logging Systems (2010).
: Formation Pressure Evaluation, Weatherford Surface Logging Systems (2010).
: SLS Advanced ANAX Course, Weatherford Surface Logging Systems (2011).
: Rig Pass, Weatherford Oil Tools (2010).
: Safe Start, Weatherford Oil Tools (2010).

- : CBT (Computer Based Training), Weatherford Oil Tools (2010).
- : IMS (Integrated Management System), Weatherford Oil Tools (2010).
- : JSA (Job Safety Analysis), Weatherford Oil Tools (2010).
- : Anax-6, WellWizard-6, Weatherford Surface Logging Systems (2013).
- : Environmental Induction, Weatherford Surface Logging Systems (2013).
- : Introduction to OEPS, Weatherford Surface Logging Systems (2013).
- : Weatherford Health & Safety Induction, Weatherford Surface Logging Systems (2013).
- : SLS WellWizard™ Update, Weatherford Surface Logging Systems (2013).
- : MENA IT Induction Program, Weatherford Surface Logging Systems (2013).
- : RADAR System, Weatherford Surface Logging Systems (2013).
- : SLS Advanced Mud Logging Course, Weatherford Surface Logging Systems (2014).
- : GC-Tracer Evaluation, Weatherford Surface Logging Systems (2014).
- : Hydrogen Sulfide in Production Operations, Weatherford Surface Logging Systems (2014).
- : Mining Engineering, Open Universities Australia (OUA), online course (2014).
- : Management for a Competitive Edge, Open Universities Australia (OUA), online course (2014).
- : Weatherford Dropped Object Prevention Awareness, Weatherford Surface Logging Systems (2014).
- : FID gas system, Weatherford Surface Logging Systems (2015).
- : HSE courses:
 - Hute, Survival and Fire Fighting, Naval Academy in Alexandria (May 2007).
 - H2S and Breathing Apparatus, Gulf Technical & Safety Training Centre LLC (GTSC) (Dec. 2009).
 - H2S and Breathing Apparatus, National Training Institute L.L.C (Sultanate of Oman) (Jun. 2012).
 - Hute, Survival and Fire Fighting, Badr City – Cairo (Aug. 2017).
- : ICDL

CHRONOLOGICAL EXPERIENCE RECORD

- Dates** : From Nov. 2015 till now
- Employer** : Weatherford LTD (Oman)
- Job title** : Sales Manager
- Job Description** :
- Responsible for implementing Weatherford SLS policies and strategies in the Mud Logging Operations, had overall responsibility to ensure the quality of all materials, personnel and services and HS&E standards supplied from the local districts are in support of their local operations conform to Client specifications.
 - Attend the client meetings to plan and agree project requirements, and maintain relationship to ensure delivery of service.
 - Monitor financial results for projects and apply necessary control procedures to meet pre-defined objectives.

- Determine annual unit and gross-profit plans by implementing marketing strategies; analyzing trends and results.
- Establish sales objectives by forecasting and developing annual sales quotas for regions and territories; projecting expected sales volume and profit for existing and new products.
- Implement national sales programs by developing field sales action plans.
- Maintain sales volume, product mix, and selling price by keeping current with supply and demand, changing trends, economic indicators, and competitors.
- Establish and adjust selling prices by monitoring costs, competition, and supply and demand.
- Complete national sales operational requirements by scheduling and assigning employees; following up on work results.
- Maintain national sales staff by recruiting, selecting, orienting, and training employees.
- Maintain national sales staff job results by counselling and disciplining employees; planning, monitoring, and appraising job results.
- Maintain professional and technical knowledge by attending educational workshops; reviewing professional publications; establishing personal networks; participating in professional societies.
- Contribute to team effort by accomplishing related results as needed.

Dates	:	From Jul. 2010 till Oct. 2015
Employer	:	Weatherford Surface Logging Systems, Mud Logging Branch
Job title	:	Well Site Geologist & Senior Data Engineer
Job Description	:	<ul style="list-style-type: none"> • Worked in various countries like Iraq, Kuwait, Oman on several exploration and development wells. • Supervision of “Formation Evaluation” contractors (Mud Logging Geologists, MWD Logging Engineers, Wireline Logging Engineers, Coring and Well Testing Personnel). • Logistics concerning the formation evaluation contractors and their equipment. • All safety aspects for the well and personnel during these evaluation operations. • Quality control of all evaluation results and logs prior to accepting the data or logs from those contractors. • Providing relevant correlation and well data to those contractors during their operations. • Checking all reports and logs from the evaluation contractors prior to sending them to oil company offices. • Monitoring and supervising the collecting, processing and dispatching of formation evaluation samples. • Safe-guarding the collection, storage and transmission of information and reports at the well site. • Well site interpretation of the formation evaluation data. • Checking and occasionally approving and signing of service reports and invoices of the formation evaluation contractors. • Keeping the drilling superintendent and operations geologist fully informed of all formation evaluation operations.

- Since teamwork is required, the geologist must work closely with the drilling team (Company Man, Drilling Engineer, Tool pusher and Rig Crew) providing advice when necessary to assist in safe, cost-effective drilling and non-drilling operations.

Dates : From Oct. 2009 till Jun. 2010
Employer : North East Africa for Wire Co. World Group
Job title : Sales Engineer
Job Description : Serving variety of customers across a diverse range of industries including mining, oil & gas, construction and maritime.

Dates : From Nov. 2008 till Sep. 2009
Employer : Halliburton (SPERRY DRILLING SURFACE) CO.
Job Description :

- Worked as Technical Advisor in Surface Logging Systems, Mud Logging Branch.
- Managing various mud logging projects and operations from the tendering stage until execution phase and closing the project.
- Assume full responsibility for the proper management of the mud-logging units, including crew change, equipment and operations facilities, Providing the Client with detailed interpretations and analysis, generated Logs as specified and requested by the Client in the scope of work.

Dates : From Feb. 2004 till Oct. 2008
Job Description :

- Worked as Mud logger Geologist and Unit Manager for HALLIBURTON (SPERRY DRILLING SURFACE) CO. in Surface Logging Systems, Mud Logging Branch, with KHALDA, QARU and PETROBEL in EGYPT on super rigs in the Western desert, and with BP, SHELL, BG and RASHPETCO in the Medeteranian on several exploration and development wells.
- Operating on-line computerized mud logging unit, also performed well site geologist duties like describing and analyzing geological samples, as well as monitoring, reporting and analyzing all gasses and hydrocarbon-shows data while drilling.
- Monitor tasks in a safe, timely and accurate manner in order to assist in the efficient completion of exploration and development wells for oil and gas.
- Prepare reports and data to Client Specifications as per contract.
- Troubleshoot repairs and configure all computer systems to client specifications.
- Maintain effective communication with the client, mud logging crew and drilling and other service personnel.
- Evaluate Drilling & Geological Data, communicating interpretations and observations with the client.
- Competent in performing all essential mud logging functions and duties, including mud log printing.
