### Internship experience:

- Receive the work order from the project coordinator.
- Manage the required resources (team – tools – car – cash) to do the job.
- Do all the assigned jobs from the project coordinator, in the required time within the budget.
- Manage and report with all the problems generated from or between the team members.
- Keep the customer supervisor satisfied with the quality of the work done and team performance.
- Collect, manage, analyze and report installation problems.

- Ensure safety in performing the work.
- Make sure of the conformance of the measurement of monitoring devices.
- Stop work when exposure to a hazard presents too high risk to the installation team safety.
