Field of experience :

- High Voltage Substation Project Manager with a proven track record of successfully overseeing complex projects from inception to completion.
- Possessing a solid background in electrical engineering and project management, I bring a wealth of experience in leading cross-functional teams, ensuring the timely and cost-effective delivery of high-quality

projects.

- Throughout my career, I have demonstrated a keen ability to manage all phases of project lifecycles, including feasibility studies, design, procurement, construction, and commissioning.
- My expertise lies in coordinating with diverse stakeholders, including engineers, contractors, and regulatory agencies, to ensure compliance with industry standards and project specifications.
