

Holds a B. Sc. in Civil Engineering and has over 7 years experience in his field of education.

PERSONAL DATA

Nationality : Egyptian
Gender : Male
Residence : Koutor

EDUCATION

: B. Sc. in Civil Engineering, Alexandria University, 2015

LANGUAGES

Arabic : Native Language
English : Good

COMPUTER SKILLS

: Windows, MS Office (Word, Excel, Power Point), Internet
: AutoCAD drawing
: Shop drawing programs (Auto Rebar, Cutoptimization)

CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Jan. 2022 till now
Employer : Hassan Allam Construction (HAC)
Project : Al-Arish Simple Power Plant 250MW
Job title : Senior Site Engineer
Job Description :

- Mobilization work:
 - Leveling site mobilization area and Preparation workshop.
 - Preparation offices and land scape for mobilization and Installation temporary fence.
- Control building:
 - Excavation and Backfilling Work.
 - Concrete Work (Footing PC & RC - SOG – Column – Beams - Slabs).
 - Finishing work (Masonry – Plaster – Insulation – Painting - Ceramic tiles - Granite tiles).
 - Insulation work (Thermal & water Insulation).
- Concrete work for Gas turbine transformers, fin fans, Exhaust stack and auxiliary skids:

- Excavation and Backfilling Work.
- Concrete Work (PC & RC – pedestal).
- Under ground work:
 - Excavation and Backfilling Work.
 - Concrete Work (PC & RC – Walls) for manholes and piping.
- Permanent Fence:
 - Excavation and Backfilling Work.
 - Concrete work (Footing PC & RC – Column - Top beams - Watch Tower – Retaining Wall).
 - Finishing work (Masonry – Plaster - Painting).
- Roads and Land scape work:
 - Curbstone – interlock – RC Slabs – RC Side Wack.
 - Excavation and Backfilling work (Natural soil).
 - Subgrade compacted natural subgrade, Subbase course (crushed aggregate) and Base course (wet mix macadam).
 - Medium Curing MC & Rapid curing RC, Surface course Asphalt 1ST layer & 2ND layer.

Dates : From Jan. 2021 till Jan. 2022
Employer : Hassan Allam Construction (HAC)
Project : New National Energy Control Center (N-NECC)
Job title : Senior Site Engineer
Job Description :

- Mobilization work:
 - Leveling site mobilization area and Preparation workshop.
 - Preparation offices and land scape for mobilization and Installation temporary fence.
- Operation, Communication and HR Building:
 - Excavation and Backfilling Work.
 - Concrete Work (Footing PC & RC – SOG – Column – Beams - Slabs - Parapet).
 - Insulation work (Thermal & water Insulation).
- Under ground work:
 - Excavation and Backfilling Work.
 - Concrete Work (PC & RC – Walls) for manholes and piping.

Dates : From Jan. 2021 till Jan. 2022
Employer : Egyptian Armed Forces
Job title : Site Engineer at Engineering Dept.

Dates : From Jul. 2017 till Dec. 2020
Employer : Elsewedy Electric (PSP)
Project : Beni Suef 4800MW CCP Fast Track Project
Job title : Site Engineer
Job Description :

- Mosque Building:
 - Excavation and Backfilling Work.
 - Concrete Work (Footing PC & RC – SOG – Column – Beams - Slabs - Parapet).
 - Finishing Work (Masonry – Plaster – Painting - Ceramic Tiles - Granite Tiles - Gypsum Decoration).

- Insulation work (Thermal & water Insulation).
- Road Work:
 - Second layed Asphalt.
 - Road Marking (lines – Arrows - Acrossing Walkers - Traffic Signs).
 - Curbstone Repair & painting.
- Guard Building:
 - Excavation and Backfilling Work.
 - Concrete Work (Footing PC & RC – SOG – Column – Beams - Slabs - Parapet).
 - Finishing work (Masonry – Plaster – Insulation – Painting - Ceramic tiles - Granite tiles).
- Outdoor Lighting system:
 - Excavation & Backfilling Work.
 - Hand hole (PC & RC - Repair).
 - Pipes HDB and PVC.
- Land scape & Pitching work:
 - Curbstone – interlock – plants – RC Slabs – RC Side Wack.
- Permanent Fence:
 - Excavation and Backfilling Work.
 - Concrete work (Footing PC & RC – Column - Top beams - Watch Tower – Retaining Wall).
 - Finishing work (Masonry – Plaster - Painting).
- New Added line PCB 700mm GRB "service cooling water system".
- Owner master punch list & Internal punch list:
 - Excavation and Backfilling - Footing PC & RC - Pedestal – Insert Plate.
 - Valve pit: Excavation and Backfilling – Form work & reinforcement for Raft & walls.
- Industrial Waste Water Treatment System (IWWS):
 - Storage Basin: Excavation and Backfilling – Form work & reinforcement for Raft & walls.
 - Collection pit: Excavation and Backfilling – Form work & reinforcement for Raft & walls.
 - Sewage Treatment Plant: Modification excavation and backfilling for HDPE Pipe Line.
- Cooling Water Upgrade system (addition work):
 - Pipe Support: Excavation and Backfilling - Footing PC & RC - Pedestal – Insert Plate.
- Structure for chemical, oil and hazardous waste storage fire protection:
 - Excavation and Backfilling Work.
 - Concrete work (PC & RC RAFT – Column - Top beams).
 - Finishing work (Masonry – Plaster - Painting – Epoxy painting).
