CHRONOLOGICAL EXPERIENCE RECORD

Dates	: From Mar. 2021 till now
Employer	: Hassan Allam Construction Company
Projects	Swanlake Residences
	Al Alamein Airport
Job title	: Senior Technical Office Engineer
Job Description	 Prepare a Shop Drawing for Site with AutoCAD Structure Detailing. Study the project contract documents (time schedule, project design drawings, BOQ). Update the shop drawing log before sending the shop drawing to consultant for approvals. Study and prepare requests for information (RFIs) for all missing, unclear, conflicting or other technical matters that may arise during construction. Review sub-contractors' shop drawings as well as outsourced shop drawings and coordinate their approval process with the project consultant. Coordinate with Surveying Engineer to provide him all the information about land coordinates and any site measurement required. Coordinate Structure with Architecture. Participate in solving/reporting any unexpected technical difficulties, and other problems that may arise during construction to the Technical Office Manager for discussion and proper solve. Prepare as-built drawings at the end of the project and hand over to the project consultant.
