CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Dec. 2017 till Mar. 2019
Employer : Egyptian Armed Forces
Project : Suez Canal tunnels
Job title : Site Engineer
Job Description : The Ismailia road tunnel is a twin tube road tunnel that will cross the existing and new Suez Canal north of the city of Ismailia. It is part of a larger development project in the Suez Canal corridor. The completion of the development project including the tunnel has the highest priority in Egypt to boost economic growth. Therefore, the pressure is high to deliver this project on a tight schedule.

Further experiences : Completed one high rise building structural design during my graduation year using software such as Etabs, Safe in addition to AutoCAD. Project: Twin towers 35 floors each connected from 10th floor and up. My duty was full structural analysis with computer aided programs and concrete design in addition to CAD drafting.
