

Holds a Welding Diploma and has about 35 years hands-on experience working in welding / piping.

PERSONAL DATA

Nationality : Egyptian
Birth Date : 28/02/1966
Gender : Male
Residence : Alexandria

EDUCATION

: Welding Diploma High School

LANGUAGES

Arabic : Native Language
English : Good

COMPUTER SKILLS

: Windows, MS Office, Internet

TRAINING COURSES AND CERTIFICATIONS

: Certified Welding Inspector (CSWIP 3.1), U.K.
: European Welding Inspection Fractioned (CSWIP), U.K ASNT.
: Radiography testing & Film Interpretation, NDT Technology.
: Magnetic particle Testing, NDT Technology.
: Liquid Penetrant Testing, NDT Technology.
: Course on Welding Inspection by TWI CSWIP 3.1, Qatar (Sep. 2006).

CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Feb. 2022 till now
Employer : EMC
Project : MIDOR Project
Job title : Welding & NDT Inspector

Dates : From Sep. 2020 till Dec. 2021
Employer : EPICO

Project : NCIC Fertilizer Complex
Job title : Welding & Piping & NDT Inspector

Dates : From Jun. 2019 till Aug. 2020
Employer : EGAC
Project : Burullus Power Plant, Sokhna
Job title : NDT & Welding Inspector

Dates : From Dec. 2016 till May 2019
Employer : Consolidated Construction Company (CCC)
Project : Clean Fuels Project (CFP), Kuwait
Job title : Welding General Foreman
Job Description : Coordinate and cooperate with QC department to implementation all Wps and observation consumable material and welding operation and Repair.

Dates : From Jul. 2014 till Dec. 2016
Employer : Descon Engineering, Qatar
Projects : Qatar Gas / Ras Gas / Dolphin / Olefen / Gtl
Job title : Welding/Piping Inspector / Equipment Inspector
Job Description :

- Material inspection, welder qualification for duplex. super duplex. ss. Itcs. cs pipes fab. shop & pipe Line, welding inspection certifying authority, Equipment inspector.
- Witness Flushing and Hydro testing of piping systems including high-pressure – line and process lines.
- Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrate inspection.
- Clearing NDT requirement of Piping spool as per specification and check all report.

Dates : From Jun. 2013 till Jul. 2014
Employer : Amaco / Petrojet / Bapetco / Shill
Project : Assil & Karam Gas Field Development
Job title : Welding/Piping Inspector
Job Description :

- Material inspection, welder qualification for duplex. super duplex. Ss. Itcs. cs pipes fab. Shop & pipe line, welding inspection certifying authority.
- Witness Flushing and Hydro testing of piping systems including high-pressure – line and process lines.
- Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrate inspection.
- Clearing NDT requirement of Piping spool as per specification and check all report.

Dates : From Aug. 2012 till Feb. 2013
Employer : Hitachi Plant Inspection Technology
Project : Banha Power Station

- Job title** : Welding/Piping Inspector
- Job Description** :
 - Material inspection, welder qualification with welding inspection certifying authority.
 - Witness Flushing and Hydro testing of piping systems including high-pressure steam – line and process lines.
 - Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrate inspection.
 - Clearing NDT requirement of Piping spool as per specification and check all reports and documents.
- Dates** : From Feb. 2012 till May 2012
- Employer** : Bureau Veritas, Saudia Arabia
- Project** : Third Party
- Job title** : Welding/Piping Inspector
- Job Description** :
 - Material inspection, welder qualification with welding inspection certifying authority.
 - Witness Flushing and Hydro testing of piping systems including high-pressure steam line and process lines.
 - Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrate inspection.
 - Clearing NDT requirement of Piping spool as per specification.
- Dates** : From Mar. 2011 till Nov. 2011
- Employer** : Technip Uk British Petroleum
- Project** : West Delta Deep Marin Phass Viiia
- Job title** : Welding/Piping Inspector
- Job Description** :
 - Material inspection, welder qualification with different material such as Super Duplex, S.S., low alloy and LTCS etc.
 - The work includes fit up inspection of piping, welding inspection and co-ordination between client and certifying authority.
 - Preparing punch list of Piping systems prior to pressure test.
 - Witness Flushing and Hydro testing of piping systems including high-pressure steam – line and process lines.
 - Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Reentrant inspection.
 - Clearing NDT requirement of Piping spool as per specification, for submarine work as manifold and SDA check of all reports and documents.
- Dates** : From Feb. 2009 till Feb. 2011
- Employer** : Iemsa & Techint Cimemontobi Engineering
- Project** : Methanol, Pdh – Mopco
- Job title** : Welding/Piping Inspector
- Job Description** :
 - Material inspection, welder qualification with different material such as C.S., S.S., low alloy; super duplex inconal: p91; p22; p11 LTCS etc.
 - The work includes fit-up inspection of piping, welding inspection and coordination between client and certifying authority.
 - Preparing punch list of Piping systems prior to pressure test.

- Witness Flushing and Hydro testing of piping systems including high-pressure steam – line and process lines.
- Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrate inspection.
- Clearing NDT requirement of Piping spool as per specification for sitting boiler and reformer and recheck all reports.

Dates : From Jul. 2006 till Feb. 2009
Employer : Consolidated Construction Company (CCIC)
Project : Qatar Gas - QGX & QCS
Job title : Welding/Piping Inspector
Job Description :

- Material inspection, welder qualification with different material such as C.S., S.S., low alloy and LTCS etc.
- The work includes fit up inspection of piping, welding inspection and co-ordination between client and certifying authority.
- Preparing punch list of Piping systems prior to pressure test.
- Witness Flushing and Hydro-testing of piping systems including high pressure steam line and process lines.
- Reviewing Radiographic films of weld joints and conducting Magnetic particle Inspection and Penetrant inspection.
- Clearing NDT requirement of Piping spool as per specification and documents check.

Dates : From Apr. 2004 till Jul. 2006
Employer : Iemsa Impianty International
Project : Alex Fert
Job title : Welding & Piping Inspector
Job Description :

- Material inspection, Conduct and witness of procedure qualification test, Welder qualification with different material.
- Fit up and welding inspection of piping, RT Film interpretation and make Record, package preparation and submitting to clients, witnessing for pressure testing, NDT co-ordination, Conducting Magnetic Particle Inspection, Penetrate Inspection & Hardness Test after Stress Relieving weld Joints.
- Preparation of welders control sheet by Radiographic Examination and breakdown of weekly repairs.

Dates : From Nov. 1998 till Feb. 2004
Employer : Mitsubishi Heavy Industries
Project : Egyptian LNG Tanks
Job title : Welding Supervisor
Job Description :

- Responsibilities for planning and controlling of work, execute the job as per priorities, Update of records on daily basis, Keeping the welder's performance and qualifications records, training welders.
- Assuring all the process is conforming as per QC requirements, Co-ordination with client and third Party, maintaining safety measures throughout the job, Impart the technical advice to the workmen as and when required, ensure materials used as per drawing and allocate the

welders as per their Qualifications, Overall supervision of welding Foremen and job, Job allocation of welding for 9% nickel Foreman, Control and issue of consumables.

Dates : From Oct. 1994 till Sep. 1998
Employer : Loral Sonar Systems Corporation (LSSC)
Project : Submarine Repair and Development
Job title : Welding Foreman
Job Description : Welders training and qualifications, Job allocation and monitoring welders, Keeping the welder's performance and qualification required, maintaining safety measures throughout the job, Control and issue of welding consumables, checking all parameters confirm to the WPS, conducting weld visual inspection and preparation of daily welding progress report, attending repair etc.

Dates : From Jun. 1988 till Aug. 1994
Employer : Frucon Construction Corporation (FCCC)
Job title : Pipe Welder

Field of experience :

- Working experience of piping, pipelines, pressure vessels, offshore structures such as jackets & deck, buoys, storage tanks, etc. for major oil/gas, petrochemical, fertilizer and power sector companies.
- Experienced in qualification of welding procedure, welder's qualification preparation of procedure and performance qualification records, witnessing mechanical testing, material inspection, welding inspection during fabrication, QA/QC activities, dimensional inspection, post weld heat treatment, hardness testing, pneumatic testing, system punching, test pack preparation, hydro testing, reinstatement etc.
- Pertaining to international codes such as ASME, AWS, API, etc.
- Experienced in inspection of static equipment in process plants such as pressure vessels, heat exchangers, storage tanks, process piping etc.
- Experience in conducting radiography using X-ray machines, Gamma Ray Cameras (IR192), Interpretation of radiographs.
- Experienced in PT and MT with visible and fluorescent types of tests on various specimens.
