

To Whom It May Concern

Tokyo Electric Power Services Co., Ltd. (TEPSCO) was assigned a study team for "Preparatory Survey on the Photovoltaic Power Plant Project in the Arab Republic of Egypt" from Japan International Cooperation Agency (JICA).

A counterpart of the Egyptian government of this study was the New and Renewable Energy Authority (NREA) and the location of the plant was at Hurghada, Egypt with 20MW Photovoltaic capacity.

The Study was successfully conducted from December 2010 to December 2012 with the satisfactions from both JICA and NREA.

This is to certify that TEPSCO has assigned Egypt Engineering Services, S.A.E. (EGYPTROL), a sister company of PowerServ, as Local Consultant to provide certain consulting services related to the Study.

TEPSCO is acknowledged that the services performed by EGYPTROL during the Study was very well and acceptable performance of the work and recommend EGYPTROL and its sister company PowerServ for similar scope of services.
