

Holds a Bachelor in Management & Information System and has over 17 years' experience in end-to-end supply chain leadership across high-value EPC projects in the power, oil & gas, and heavy industry sectors. Proven expertise in procurement, logistics, warehouse operations, and materials management. Adept at implementing SAP MM and ERP solutions, deploying inventory automation (barcode/RFID, JIT, automated replenishment), and driving measurable cost and efficiency improvements. Demonstrated ability to lead cross-functional teams, manage supplier relationships, and ensure full HSE and international trade compliance in complex, fast-paced project environments.

PERSONAL DATA

- : After Effects CC – Russian Culture Centre.
- : 3D Max course, AXON (2007).
- : Learning AutoCAD 2010 Essentials course (2010).
- : AutoCAD 2010 Intermediate 3D course (2010).

CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Feb. 2023 till now

Employer : INP Deutschland GmbH

Project : RM4 Heavy Section & Rail Mill Project
(EPC Project - Heavy industrial manufacturing; steel rolling mill construction)

Job title : Supply Chain Manager

Job Description :

- Directed end-to-end supply chain for a major EPC project: procurement, multi-modal logistics, and last-mile delivery of heavy equipment and bulk materials.
- Ensured full compliance with international trade regulations; managed all import documentation including commercial invoices, bills of lading, certificates of origin, and packing lists.
- Negotiated supplier contracts and resolved disputes, maintaining an approved vendor list (AVL) with quarterly KPI-based performance scorecards.
- Deployed barcode scanning and automated replenishment systems, improving inventory accuracy and reducing stock-outs and material waste.
- Led warehouse and laydown area teams; established KPIs, conducted appraisals, and drove a safety-first, continuous-improvement culture in line with HSE standards.
- Produced weekly and monthly supply chain dashboards and performance reports for senior management and project stakeholders.

Dates : From Oct. 2018 till Jan. 2023

Employer : Veolia Water Technology

Project : CAIRO WEST POWER PLANT

Job title : Logistics Manager

Job Description :

- Managed full inbound and outbound logistics for a major power plant project, aligning material flows with live construction schedules to prevent program delays.
- Supervised field warehouse operations: unloading, receiving, storage, distribution, and maintenance of plant and equipment.
- Validated material quantities and specifications against purchase orders and material requisitions (MRs); managed consignment damage claims.
- Evaluated and onboarded local suppliers; conducted quarterly vendor scorecards assessing delivery performance, price competitiveness, and quality.
- Led a multi-discipline warehouse team, maintaining strict adherence to HSE standards and company ISO procedures.

Dates : From Aug. 2017 till Sep. 2018
Employer : AC BOILERS S.P.A
Project : 6 OCTOBER POWER PLANT 750MW
Job title : Materials Controller
Job Description :

- Managed full materials lifecycle from receipt to issuance for a 750MW combined-cycle power plant project.
- Applied colour-coded storage and material certification systems to ensure full traceability and compliance with project specifications.
- Conducted consignment inspections for visible and concealed transport damage; coordinated resolution with freight forwarders and insurers.

Dates : From Jan. 2015 till Aug. 2017
Employer : GS E&C
Project : ERC Refinery Project (Gas & Oil Project in Mostorod)
Job title : Materials Controller
Job Description :

- Supported materials management for a large-scale refinery project: procurement follow-up, receiving, inventory, and issue control.
- Maintained accurate ERP inventory records and generated material status reports for project management.
- Coordinated with engineering and procurement teams to resolve material discrepancies and substitution requests.

Dates : From Jan. 2014 till Dec. 2014
Employer : GE
Project : ASSIUT POWER PLANT PROJECT 8x125MW
Job title : Materials Manager
Job Description :

- Managed all materials operations for an eight-unit, 1000MW power plant project under GE's project framework.
- Coordinated scheduling and logistics of materials to meet strict construction program milestones.

Dates : From Jan. 2012 till Dec. 2013
Employer : DOOSAN
Project : EL AIN EL SOKHNA SUPERCRITICAL THERMAL POWER PLANT 2x650MW GAS/OIL FIRED UNITS (CP-105)
Job title : Materials Manager
Job Description :

- Led materials management for a 1,300MW supercritical power plant — one of Egypt's largest at the time.
- Coordinated high-volume international procurement, freight forwarding, and customs clearance for heavy equipment.

Dates : From Jan. 2009 till Dec. 2011
Employer : INITEC Energia
Project : CAIRO WEST THERMAL POWER PLANT 2x350MW GAS/OIL (CP-118)
Job title : Materials Controller
Job Description :

- Launched professional career in materials control on a 700MW power plant project; developed core competencies in warehousing, inventory

management, and procurement support.

- Supported import documentation processing and liaised with customs brokers for timely material clearance.

Field of experience :

- Supply Chain Strategy.
- Procurement & Sourcing.
- Inventory & Stock Control.
- Warehouse Operations.
- Demand & Capacity Planning.
- SAP MM / ERP Systems.
- Barcode / RFID Systems.
- Automated Replenishment.
- JIT Inventory Control.
- Demand Forecasting & S&OP.
- Vendor Scorecards.
- Documentation: Commercial Invoices - Bills of Lading - Certificates of Origin - Packing Lists - Material Certificates - MRR/CMRR.
- Compliance: HSE Standards - ISO Procedures - International Trade Regulations - Environmental Compliance.
