Achievements & Rewards:

- Got a special appreciation certificate from the CEO of ElSewedy Sedco for my professional excellence in developing the EHS section.
- Made three days of sessions about ISO 45001 awareness training for the safety committee members of Al Andalous Pharmaceutical Industries Co.
- Made an awareness online session about ISO 45001, and ISO 45002 for selected people from all around the Arab world and outside it.
- Thankful certificates from both Zagazig and Mansoura Universities as a talker for my successful completion of the HSE sessions (critical topics) at the Faculty of Science.
- Gave certified live courses and online fruitful sessions about Chemical Hazards.

Publications:

- Working on making an Occupational Health & Safety handbook, its objective is to share the applicable technical know-how in the field of OHS. This milestone handbook contains the most essential applicable safety laws, roles, codes, standards, and requirements.
- Made a short booklet explaining the essential observation weekly routine visual check for the fire pumps room (for non-specialists).

- Made three environmental research papers; the first is about (Effects of non-renewable energy resources on Egypt's Vegetation, Atmosphere, Hydrosphere and Lithosphere), the second is (Investigation of saltwater intrusion in Nile Delta aquifer as an impact of Sea Level Rise caused by global warming and the excessive extraction from the aquifer, Egypt), and lastly (Radioactive instruments (Geiger, scintillation counter, and gamma-ray spectrometer).
- Research paper about (How to write the perfect effective CV & Scientific research papers).

- Field of experience :**
- Certified Training of Trainers (TOT) person with a unique way of making safety inductions, providing internal TBT, and delivering on-site safety training with adherence to competency & standards to enforce safety culture awareness and safe work practices.
 - Senior QHSE specialist who promotes and ensures the development of related procedures, reports, instructions, forms, documents, and programs referenced within the standards and laws. Qualified observant and perceptive safety-responsible person doing internal audits for continual improvement considering confidentiality.
 - For best practice; measuring site performance with analytical skills for implementing HSE statistics to deliver and fix all identified deficiencies, gaps, and deviations.
 - Decisive risk assessor carrying out safety inspections in place to ensure their effectiveness and identify safety and health risks & violations. With experience in monitoring various activities in high-risk situations and ensuring that risks in the work environment are maintained at a level that is as low as reasonably practicable.
 - Conducting workplace plan emergencies and explaining means of egress for quick response to any emergency case. Doing incident site investigation to determine the root cause and follow up the implementation of the recommended corrective action to prevent reoccurrence.
 - Use continual improvement tools and techniques effectively. Ensure creating a safe and risk-averse setting for all, through participating in risk assessment and job hazard analysis for all processes and departments to determine the control measures and take quick action with hazardous work cases before causing incidents.
 - Ensure the provision of EHS advice and recommend solutions to issues that need improvement and compliance with all applicable safety policies, taking account of statutory and maintaining current legislation and updates. Determining the SMART safety objectives and ensuring effective team participation and eagerness to progress quickly.
 - Advice on the purchase of all proper safety-related objects according to their purpose, and international Codes/ Standards.
