 - Project Manager for CMMS implementation project at ECDC, Egypt.
 - Manage all project resources.
 - Prepare project plan.
 - Organizing of all project correspondences and deliverables during the project period.
 - Preparation of Full Asset Registration Models (Equipments Hierarchy and Listing).
 - Equipment Technical data gathering and classification.
 - Preparation of Preventative Maintenance tasks in coordination with different discipline engineers.
 - Preparing Maintenance Master Plan.
 - Carry out data verification for consistency and integrity.
 - Design and Prepare the Management reporting system for maintenance planning.
 - Preparation of the system Training.
- Project Engineer for Amos Implementation (Phase 02) at ENI oil Libya (Jul. 2010 till Jan. 2011):
 - Project Engineer for CMMS implementation at ENI oil, Libya.
 - Acting as Project Manager.
 - Coordination with different Project Parties.
 - Prepare project plan.
 - Preparing Assets hierarchy review and enhancement.
 - Preparing Asset types hierarchy review and enhancement.
 - Components / assets listing and technical data completion.
 - Preparing Equipment types classification.
 - Preparing Technical data gathering and configuration sheets.
 - Components / Functions module Master codes definition & development (Types, criticalities, priorities, systems, status...etc.).
 - Preparing Equipment & Instruments Spares identification & listing.
 - Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
 - Establishing maintenance master plan.
 - Carry out data verification for consistency and integrity.
 - Carry out the data entry in Amos system.
- CMMS/eAM Implementation Engineer for Oracle eAM at Qatar Steel Company (QASCO) Qatar (Apr./May 2010):
 - Establishing the Asset Numbers and Genealogy.
 - Establishing the Asset Group for Asset Numbers.
 - Preparing the Asset BOM.
 - Preparing the Activities & Operations Listing and Coding.
 - Preparing the Maintenance Routing (Activities Operations association).
 - Preparing the Asset Attributes.
 - Preparing the Activities suppression.
 - Establishing the Preventive Maintenance Schedule and planning.
- Project Coordinator for MIWI Enhancement at RASHPETCO (Rashid Petroleum Company) Egypt (Jun. 2008 till Mar. 2010):

- Project Coordinator for MIWI Enhancement at Rashpetco, Egypt.
- Coordination with different Project Parties.
- Prepare Project plan.
- Prepare the document required to develop technical deliverables; identifies/reports shortages and arranges/coordinates with clients to collect missing data via field visits, etc.
- Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
- Participate in the enhancement of all job plans.
- Project Engineer for Amos Implementation (Phase 01) at ENI oil Libya (Dec. 2008 till Dec. 2009):
 - Project Coordinator for CMMS implementation at ENI oil, Libya.
 - Coordination with different Project Parties.
 - Prepare project plan.
 - Preparing Assets hierarchy review and enhancement.
 - Preparing Asset types hierarchy review and enhancement.
 - Components / assets listing and technical data completion.
 - Preparing Equipment types classification.
 - Preparing Technical data gathering and configuration sheets.
 - Components / Functions module Master codes definition & development (Types, criticalities, priorities, systems, status...etc.).
 - Preparing Equipment & Instruments Spares identification & listing.
 - Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
 - Establishing maintenance master plan.
 - Carry out data verification for consistency and integrity.
 - Carry out the data entry in Amos system.
- Implementation Engineer for Oracle eAM at El Ezz Flat Steel Company (EFS – Al Ain El Sokhna) Egypt (Mar. 2008 till Jun. 2008):
 - Establishing the Asset Numbers and Genealogy.
 - Establishing the Asset Group for Asset Numbers.
 - Preparing the Asset BOM.
 - Preparing the Activities & Operations Listing and Coding.
 - Preparing the Maintenance Routing (Activities Operations association).
 - Preparing the Asset Attributes.
 - Preparing the Activities suppression.
 - Establishing the Preventive Maintenance Schedule and planning.
- Project Engineer for CMMS implementation at G.C.C.I (General Company for Chemical Industries) Libya (Feb. 2007 till Mar. 2008):
 - Project Coordinator for CMMS implementation at GCCI, Libya.
 - Coordination with different Project Parties.
 - Prepare project plan.
 - Organizing of all project correspondences and deliverables during the project period.
 - Preparation of Full Asset Registration Models (Equipments Hierarchy and Listing).
 - Equipment Technical data gathering and classification.
 - Preparation of Preventative Maintenance tasks in coordination with different discipline engineers.
 - Preparing Maintenance Master Plan.
 - Carry out data verification for consistency and integrity.
 - Design and Prepare the Management reporting system for

- maintenance planning.
- Preparation of the system training.
- Implementation Engineer for 3Ms Implementation at ADCO (Abu Dhabi Company for Onshore Oil Operations) UAE (Apr. 2006 till Sep. 2006):
 - Participate in CMMS implementation at ADCO oil fields, UAE.
 - Preparing the Equipment / Location List for the New Facilities including the Failure Class, GL Accounts, Hazard Area Classification, HSE Criticality Assessment and Adapt it to match with MAXIMO.
 - Preparing the Technical Data for the Equipment Using the Vendor Data Book and the Technical Data Sheets.
 - Participate in equipment technical data gathering and classification.
 - Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
 - Participate in established maintenance master plan.
 - Carry out data verification for consistency and integrity.
- Implementation Engineer for CMMS implementation CPTL (Companie des Petroles TOTAL-Libya) Great Mabruk Project (Jan. 2006 till Mar. 2006):
 - Participate in CMMS implementation at CPTL (Companie des Petroles TOTAL-Libya) oil fields, Libya.
 - Participate in the preparation of full Asset Register (Hierarchy and equipment listing).
 - Participate in equipment technical data gathering and classification.
 - Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
 - Participate in established maintenance master plan.
 - Carry out data verification for consistency and integrity.
- Implementation Engineer for CMMS Implementation at GEMPETCO (GEMSA Oil Company) Egypt (Jul. 2005 till Dec. 2005):
 - Participate in CMMS implementation at GEMSA oil fields, Egypt.
 - Participate in the preparation of full Asset Register (Hierarchy and equipment listing).
 - Participate in equipment technical data gathering and classification.
 - Prepare preventive maintenance tasks list in coordination with different discipline Engineers.
 - Participate in established maintenance master plan.
 - Carry out data verification for consistency and integrity.
 - Design and Prepare the Management reporting system for maintenance planning.
