

104319-MEC-145CBSUVXY-S-1990
Piping & Mechanical Supervisor

Holds a Mechanical Diploma and has over 26 years experience in Piping, Structural & Mechanical Jobs in Constructions as a Supervisor in Projects with well known Companies in Egypt and abroad.

PERSONAL DATA

Nationality : Egyptian
Birth Date : 20/03/1971
Gender : Male
Marital Status : Married

EDUCATION

: Diploma in Mechanical Engineering in Egypt
: Diploma in Industrial Safety from Egypt Institute of management studies

LANGUAGES

Arabic : Native Language
English : Good

COMPUTER SKILLS

: Windows, MS Office (Word, Excel, Power Point), Internet
: AUTOCAD, Photoshop, Flash, Adobe Illustrator
: Talisman, Lotus

TRAINING COURSES AND CERTIFICATIONS

: Internal Auditor Training for QMS Based On ISO 9001: 2000.
: Certified Process piping seminar.
: Glass reinforced plastic (GRP) training.
: Safety courses at Yak Maritime Academy Pvt Ltd, Kafr El Dawar, Behira, Egypt:

- Fire prevention and fire fighting.
- Personal safety and social responsibility.
- Personal survival technique.
- Elementary first aid.
- Breathing Apparatus and H2S Training.

: Trainings during projects at site:

- Permit To Work (PTW) Training.
- Incident and Injury Course.
- Working At Height Training.

- Scaffolding & Harness Inspection Training.
- BBS training Singapore plant project.

CHRONOLOGICAL EXPERIENCE RECORD

Dates : From Mar. 2014 till now
Employer : JV (Global Toyo – Enppi)
Project : EthydcO Plant Project
Job title : Piping Supervisor – Commissioning, Start-up Superintendent

Dates : From Feb. 2012 till Nov. 2013
Employer : Technip Italy
Project : Storp Plant Project
Job title : Piping Supervisor

Dates : From Jun. 2009 till Aug. 2010
Employer : Technip Italy
Project : Singapore NEXBTL Plant Project
Job title : Piping Supervisor

Dates : From May 2008 till Apr. 2009
Employer : Technip Italy
Projects : YANSAB Saudi Arabia & Singapore NEXBTL Plant Project
Job title : Piping Supervisor

Dates : From Jul. 2006 till Jul. 2007
Employer : Consolidated Contractor Company
Project : Jubail Petrochemical Plant Project (CHEVRON)
Job title : Piping Supervisor

Dates : From Nov. 2004 till Jan. 2006
Employer : Bonatti Gas Ltd
Project : Libya Gas Project Melitah
Job title : Piping Supervisor

Dates : From Jan. 2004 till Oct. 2004
Employer : Bechtel LNG
Project : LNG IDKU
Job title : Piping & Mechanical Supervisor

Dates : From Jun. 2003 till Jan. 2004
Employer : Dodsal Gas Limited, Alexandria - Egypt
Project : LNG Damietta

Job title : Piping & Mechanical Foreman
Dates : From Mar. 2002 till May 2003
Employer : EL TRKEP COMP. – ABB Lummus Global
Project : Algeria Gas Development Project
Job title : Piping & Mechanical Supervisor

Dates : From Sep. 2000 till Nov. 2001
Employer : Techint Cimimontubi
Project : Alexandria Oil Plant Project
Job title : Piping & Mechanical Foreman

Dates : From Mar. 1999 till Nov. 1999
Employer : DSD Ferrometalco, Alexandria - Egypt
Project : Alexandria Iron & Steel Plant Project
Job title : Piping & Mechanical Foreman

Dates : From Jun. 1996 till Dec. 1998
Employer : Hitachi Engineering, Alexandria - Egypt
Project : Alexandria Iron & Steel Plant Project
Job title : Piping & Mechanical Foreman

Dates : From Nov. 1990 till Apr. 1996
Employer : Petrojet, Alexandria - Egypt
Project : Oil Plant, Alexandria
Job title : Piping & Mechanical Foreman

Field of experience :

- More than 26 years experience in Piping, Structural & Mechanical Jobs in Constructions as a Supervisor in Projects with well known Companies in Egypt and abroad.
- Since 1990 has been involved in the engineering, procurement and construction project: engineering fabrication, maintenance, quality control (verification, certification, inspection, examination & testing) for steel structure, piping, pressure vessel, drum, column, storage tank, air cooler, boiler, heat exchanger, filter, flare, scraper receiver / launcher, compressor & blower unit, ejector, jacket, pipeline / cathodic protection include erection / installation piping and load out oil & gas platform include miscellaneous equipment. Also inspection OCTG equipment and accessories such as: Drill pipe, Tubing / Casing, Christmas tree, collar, Crossovers, drill collar, Heavy drill pipe, lifting subs torque, packer, pup joint, valve, pipe mill and vendor inspection.
- Experienced in performing mill process surveillance inspection and new / used field API OCTG inspection include drill string and BHA, lift equipment and weld inspection for both onshore and offshore.
- Experienced and accomplished at interpretation / specification / procedure / drawing and good knowledge of shop fabrication & site installation. Familiar with drawing production for structural, piping,

mechanical equipment, and instrumentation. Work under pressure flexible on duties to perform accept responsibility work long hours committed to going extra mile to completed job correctly on time work well as team player/ have worked on own/ prepared to work in busy & isolated area. Strong skill levels supervision / Inspection / Technical solving problem all Construction and maintenance / troubleshooting in instrument equipment. Familiar with AISC, BS, AWS,ASME, ASTM, DNV, ANSI, TEMA, API, OCTG, NBIC, NACE, BGAS, AWWA C-203, TENARIS, VAM, HUNTING Connection, DS-1, other international code and standard. Understand of work sequence for both fabrication & installation include pre-commissioning/ commissioning prior to star-up at onshore/offshore project. Interpersonal skills, particular the ability to listen/ understand co-worker, customer / client problems & point of view. I am committed to being professional in my work displaying integrity at all time.

- Construction projects: in ABROAD & Egypt.
- GOSP (Gas and Oil Separation Plant) / LNG Plant / Power Plant / Cross country pipe line projects / AGPP Offshore. Also in fabrication shop / Calibration dept. / Materials dept.
- Piping Supervisor:
 - Review Document & Procedure (Engineering Isometric, Shop Isometrics, relevant project specification procedures and calibration procedures) conformance to contract required.
 - Inspection material receiving and storage control conformance to PO & BOM.
 - Verification of material (identification, trace-ability & piping material classification).
 - Control manpower and increase productivities.
 - Inspection valve installation and line conformity check, Witness Flushing and Hydro-test.
- Saudi Aramco Engineering:
 - Standards, procedures, drawings, inspection and testing plan (SATIP).
 - Materials specification and grades.
 - Saudi Armco project related terms and condition: SAIC, SATR.
 - Project contracts schedules: A, B, H, Q, walk through package, checklist, exception item punch listing inspection record book, project record book.
- Supervisor: Piping / Mechanical in brief:
 - Supervision of company existing projects with particular attention to quality control / assurance responsible for the execution and monitoring of approved quality manual in the field of mechanical engineering and piping, welding, pipelines.
 - Preparation daily progress and submitted to manager.
 - Perform in process and final Activities of mechanical/piping/welding activities that includes welder testing and on going shop and field welding activities, marking of weld on isometric drawing, recording of complete field/shop weld verify of pipe work supervising all hydro test pneumatic test etc.
 - Coordinating with client and sub contractor representative on daily basis to resolve any quality problem or issues.
 - Preparation and compilation of quality reports/records and other quality related documents for activities acceptance and final project

handover.

- Receiving data of equipments static, rotating & package at site.
- Carrying out each stage and final inspection of static, rotating & package equipments at site, such as pressure vessels, columns, heat exchangers, tanks, boilers, compressors, pumps, gas turbines, generators, air fan coolers and heaters with QC.
- Carrying out each stage tray installations man way closing and temporary box-up.
- Coordination with client inspectors for inspection of equipments and stage and final wise.
- Close all surveillance and NCR which is issued by quality control.
- Assigned for review Construction documents, method of statements.
- Assigned for co-ordinate with company to resolve the CAR (Corrective Action Required) and other quality related issues.
- Assigned for weekly reports and final handover documentation (Map System wise) to company. Conduct final inspection and punch listing.
- Erection of steel erection, supports structures, pipe supports, etc.
- Preparation of reports for consumption and production of the jobs activities, etc.
