Duties and Responsibilities:

- Implement the company Policies, safety plan and procedures, communicate these in Written and through verbal presentations, and make it accessible in a comprehensible form to all personnel.
- Conduct proper and timely assessment of risks to health & safety, implementation of measures and arrangements identified as necessary from the assessments.
- Advise and ensure the corrective and preventive action to be taken to the project management to prevent the recurrence and post the information to top management regularly.
- Ensure adequate provision of first aid, facilities, safety signs, relevant protective clothing and equipment.
- Assure that the company workplace is safe without risk to health, including safe plant and machinery, safe movement, storage and use of substances.
- Establish appropriate procedures in order to control the exposure to hazardous, flammable and explosive substances, noise and electrical hazards.
- Conduct on site toolbox talks to the employees to increase the safety awareness with help of assistants. In addition, conduct safety training to engineers and supervisors.
- Carry out regular inspections on permit to work system.
- Prepare weekly, monthly safety statistics.
- Identify and assess future and current training needs through job analysis, career paths, annual performance appraisals and consultation with line managers.
- Draw an overall or individualized training and development plan that addresses need and expectations.
- Conduct effective induction and specific training sessions.

Field of experience : • I have a wide experience in HSE field with about 15 years in different types of national (EGYPT) and international (Arab Gulf countries such U.A.E) Projects.

- I worked with several companies at different projects with different budgets to assist the members of the company on the application of HSE procedures & rules so they can protect companies, workers and avoid damage for their assets as well as compliance with Local & International laws.
- I have more than 4 years as part time - trainer freelance working for regional training in the field of HSE. I'm a certified trainer from International Association of Safety Professionals (NASP/IASP), I'm Individual member in the International Association of Safety Professionals (IASP) where I have a Gold Membership (IASP).
