Dates : From Aug. 2011 till Nov. 2011
Employer : I.E.M.S.A
Project : Egyptian Poly Propylene shutdown
Job title : Piping Fitter
Job Description : DUPLEX piping system fabrication and erection.

Dates : From Dec. 2010 till Jun. 2011
Employer : KAHROMIKA
Projects : El-Shabab Power Plant & Sidi Krir Power Plant
Job title : Piping Foreman
Job Description :

- Instrument system fabrication.
- Utility piping system fabrication and erecting (galvanized, stainless steel).
- Fabrication of the (sweep air system, cooling oil, drain system, gas compressor piping system).

Dates : From Dec. 2009 till May 2010
Employer : PSC
Project : PEARL GTL Project - QATAR
Job title : Piping Foreman
Job Description :

- DUPLEX piping for water process.
- Utility piping system fabrication and erecting (galvanized, stainless steel).
- Fabrication of the (sweep air system, cooling oil, drain system, gas compressor piping system).

Dates : From Jul. 2009 till Dec. 2009
Employer : Hassan Allam
Project : Egyptian Poly Propylene Project
Job title : Piping Forman
Job Description :

- Stainless steel piping fabrication and erection.
- Cover the punch list comment and close the test package.

Dates : From Jan. 2009 till Jun. 2009
Employer : KAHROMIKA
Project : El-Shabab Power Plant & Sidi Krir Power Plant
Job title : Piping Foreman
Job Description :

- Instrument system fabrication.
- Utility piping system fabrication and erecting (galvanized, stainless steel).
- Fabrication of the (sweep air system, cooling oil, drain system, gas compressor piping system).

Dates : From Jul. 2007 till Jan. 2009
Employer : CCC
Project : KPF – KSA
Job title : Piping Foreman
Job Description :

- Flare piping system fabrication and erection.
- Utility piping system (air & water) fabrication erection.
- Cover the punch list comment and close the test package.
- Participate in the startup and commissioning of the project.

Dates : From Feb. 2007 till Jun. 2007
Employer : KBR
Project : HFC Project, Sokhna
Job title : Piping Fitter
Job Description : Piping system fabrication in the W/SH.

Dates : From Oct. 2006 till Feb. 2007
Employer : Siemens
Project : New SOMMED Hotel Project
Job title : Piping Fitter
Job Description : HVAC Piping system fabrication and erection.

Dates : From Oct. 2005 till Sep. 2006
Employer : Orascom Construction Industries
Project : HFC Project, Helwan
Job title : Piping Fitter
Job Description :

- Special material piping fabrication and erection.
- Cover the punch list comment and close the test package.

Dates : From Aug. 2004 till Jun. 2005
Employer : Archirodon
Project : Egyptian LNG IDCO Project
Job title : Offshore Piping Fitter
Job Description :

- Stainless steel piping fabrication and erection.
- Cover the punch list comment and close the test package.

Dates : From Oct. 2003 till Aug. 2004
Employer : Bechtel
Project : Egyptian LNG IDCO Project
Job title : Piping Fitter
Job Description :

- Carbon steel piping fabrication and erection.
- Cover the punch list comment and close the test package.

Dates : From May 2002 till Oct. 2003
Employer : Bechtel

- Project** : Rashpetco Project
- Job title** : Piping Fitter
- Job Description** :
 - Carbon steel piping fabrication and erection.
 - Cover the punch list comment and close the test package.
- Dates** : From Jun. 2001 till Jan. 2002
- Employer** : Petrojet
- Project** : Gasco Petrochemical
- Job title** : Piping Fitter
- Job Description** :
 - Carbon steel piping fabrication and erection.
 - Cover the punch list comment and close the test package.
- Dates** : From Apr. 2000 till Feb. 2001
- Employer** : Daelim Co.
- Project** : Midor Project
- Job title** : Piping Fitter
- Job Description** :
 - Carbon steel and special material piping fabrication and erection.
 - Cover the punch list comment and close the test package.
- Dates** : From Apr. 1999 till Mar. 2000
- Employer** : Petrojet
- Project** : Ethylene Project
- Job title** : Piping Fitter
- Job Description** :
 - Carbon steel piping fabrication and erection.
 - Cover the punch list comment and close the test package.
- Field of experience** :
 - Ability to interpret schematics, isometric drawings, plot plan, conversion tables and other mathematical charts relative to the classification of Pipefitter.
 - Good background about steel structure fabrication and installation.
