

Holds a B. Sc. in Mechanical Engineering and has over 1 year hands-on experience working in technical office and maintenance.

PERSONAL DATA

Nationality : Egyptian
Birth Date : 27/03/1993
Gender : Male
Residence : Alexandria

EDUCATION

: B. Sc. in Mechanical Engineering, Alexandria University, 2016

LANGUAGES

Arabic : Native Language
English : Very Good

COMPUTER SKILLS

: Windows, MS Office, Internet
: Fast Maint (PPM)
: AutoCAD
: Matlab
: Solid Works

TRAINING COURSES AND CERTIFICATIONS

: Pumps (Feb. 2015).
: Compressors (Aug. 2015).
: Diesel engine (Feb. 2016).
: Hydraulic and pneumatic systems (Jul. 2016).
: Abu Qir Thermal Power Plant (Jul./Aug. 2014):

- Identify the mechanical equipment in the factory, its working methods and the most important faults.
- Identify methods of preventive and predictive maintenance.
- Identify the most important mechanical parts in the stomach and ways to change them.

: Abu Qir Fertilizers and Chemicals Company (Jul./Aug. 2015):

- Identify breakdowns, diagnose faults and supervise time critical equipment repairs.

- Learn how to make regular checks for the maintenance of the machines and repair the part that need to be replaced.
 - Check some spare part from warehouse.
- : Lipton Factory at Borg El-Arab (Aug. 2016):
- Identification of manufacturing stages.
 - Identify the production lines, their containers and maintenance methods of different parts.
 - Know the methods of tea testing and improve quality.

CHRONOLOGICAL EXPERIENCE RECORD

- Dates** : From May 2017 till now
- Employer** : Elvy Weaving S.A.E
- Job title** : Mechanical Engineer
- Job Description** :
- Take charge of tasks as needed and complete them with minimal supervision in a timely manner.
 - Assessing project requirements.
 - Agreeing budgets, timescales and specifications with clients and managers.
 - Writing reports and documentation.
 - Research and development organizations.

- Dates** : From Aug. 2016 till May 2017
- Employer** : Seven Sky Company for Food Industries
- Job title** : Mechanical Maintenance Engineer
- Job Description** :
- Execution of comprehensive periodic maintenance for equipments.
 - Provide the defected machines with the spare parts and fixing the machines malfunction.
 - Report the malfunctions and the action that been taken to solve the problem.
 - Observing in hourly bases the machines and the rate of productivity and investigate their breakdowns.
 - Responsible of informing the direct manager the need for the parts and also for informing the assistant engineer if there is a shortage in the part.

- Field of experience** :
- Industrial experience in mechanical Engineering with excellent understanding of mechanical equipments used in manufacturing and production lines.
 - Safety focused with analytical approach to using numerical simulations to predict the behavior of equipments.
